

SCNCA Junior Risk Management

Dear Parents, Athletes, Coaches and Supporters of competitive bicycle racing in Southern California,

The SCNCA is instituting a risk management program for supporters of Junior cycling. This program is based on other widely used risk management strategies employed by other youth athletic organizations. If you are in contact with junior athletes at USACycling events then this program is for you. This includes coaches, team directors, mentors, volunteers, and any other support or directing staff. If you have any questions regarding this policy contact the SCNCA development coordinator, Sean Wilson at Seanwilson@scnca.com.

The Program has the following Components:

1. Background Check (\$20)

<https://www.ncsisafe.com/Members/SelfRegBatchCode.aspx?srb=57919398>

2. SafeSport Training (Free)

<https://usacycling.org/safesport/safesport-training>

3. CDC HEADS UP to Youth Sports: Online Training (Free).

<https://www.cdc.gov/headsup/youthsports/training/index.html>

Current USACycling Coaches and Officials and National Interscholastic Cycling Association (NICA) coaches should already have performed many of these tasks. Provide your name, license number, and certificates, and we will verify your status.

When you complete your training forward copies of your certification and a mailing address to:

Lynn Ingram

lynnIngram@scnca.com

SCNCA Risk Management Coordinator

The SCNCA will provide lanyard credentials for use at USACycling events.
