

My name is Armin Rahm and I began my cycling career in 1978 as a 10-year-old junior rider in Munich, Germany. I have been personally and professionally committed to cycling for nearly my entire life. I have been a Level 1 Coach with USA Cycling since 1997 and have coached athletes to National and International Championship titles. I founded the BOOST CycleSport Junior team in 2019 as my way to give back my knowledge to the youth. I am committed to providing my time and knowledge to the Southern California Cycling scene, and I'm ready to help it get back on its feet.

My goals as board member include:

- Encourage and assist Clubs to promote at least one race per season.
- Encourage Clubs to host safe rider events in their area, accessible to all community members.
- Support Juniors by providing them access to regional camps & access to safe rider programs.
- Encourage race promoters to include junior and women's racing categories.
- Create a budget to include grants for underperforming SCNCA Championship events, so they can continue operating.
- Reach out to the cycling community to bring suggestions and ideas back to the board.
- Proper website maintenance and population is needed to provide transparency and easy access to what is going on within the SCNCA scene, on and off the bike.
- Reach out to the community and ask for feedback about the SoCal Cup and its potential return?
- To be continued with your input.

Lastly, I encourage you all to remain actively involved with the dealings of the SCNCA to keep the current momentum going.

Thank you for listening and please vote for me.

Yours in sport,

Armin Rahm
